Hon. vd207: Avant tout, je vous remercie pour le discours que vous avez prononce, maintenant j'ai une question a vous poser, Miss Automationeer

Ms. Automationeer: May you restate the question in English, honourable member?

Hon. vd207: Parmi les citoyens, il y a des rumeurs de partialite a votre sujet et Shibe au sein du SCRS. Comment allez-vous resoudre ce probleme ?
Oui oui

Hon. sithmaster921: arrest this man

Hon. vd207: Among citizens, there are rumors of bias about you and Shibe within CSIS. How have you adressed this problem?

Ms. Automationeer: Thank you, Honourable Member.

The selection of Shibe was not a decision taken lightly

A range of suitable candidates across the intelligence community were considered

Shibe was selected due to his background within MCU, where he led operational work

As well as his experience in running departments and agencies within this community

I believe that he is the right fit for the role he was selected

And his selection was scrutinised by my advisors.

Hon. vd207: Thank you for your response.

What systems will you set in place in order to effectively communicate with the Ministry of Justice to prosecute individuals?

Ms. Automationeer: While in-depth conversations are yet to occur, unlike other stakeholders, I have briefly spoken with zli_c; he became aware of CSIS when it was announced to current SID members, for instance.

My goal and that of my operational leaders is to ensure CSIS investigations and operations operate in a “flow”

Hon. hxamz_a: “mr president”

Ms. Automationeer: Legal review is part of that flow

This ensures that our customers - the courts (via warrants), the MoJ, and internal affairs/PSD units - can apply our intelligence and investigations

I hope that answers your question

Of course I do need to be light on detail both because of the nature of CSIS but also because things will inevitably change as we get established

Hon. vd207: Yes, thank you for your response.
