Mr. @sithmaster921 you are given the floor for your speech; please advise me once done.

Mr. sithmaster921: Hello most of you know who I am but I used to lead Vancouver Coastal Health back when that was a thing. I had a vision then for what Coastal Health should have been and was in the process of implementing it when I was first elected Mayor. I intend on getting a strong base of medically certified people as my first priority before then focusing on more advanced programs, like MD, RN and ACP. At the heart of it, Island Health has two priorities: running hospital services and facilitating the training of new providers. I will focus on those two goals.
